Street dancer Thomas Uncles is from the wrong side of the tracks, but his bond with the beautiful Megan White might help the duo realize their dreams as they enter in the mother of all dance battles. With the recent disappointments that have been in the spoof movie genre, we needed something fresh and funny, well we're not getting that obviously. But ever since the Friedberg/Seltzer team has joined in the "I can make a movie too" bandwagon, we were begging the Waynes Brothers to come back. The last really funny spoof movies are the Scary Movie series, they were clever and in our faces about the clichés in horror movies. The past few years we have had a major thing with dance movies like: Save the Last Dance, Step Up, Stomp the Yard, You Got Served, Honey, etc. Leave it to the Waynes Brothers to finally put this genre in it's over clichéd and overused scripts in it's place. Unfortunately Dance Flick did not meet my expectations, it was one of those movies that used all the funny clips in the trailer. I can't even believe how many problems there was with this movie, wither it's the editing, acting, or direction, Dance Flick is a let down.

Megan is a former dancer who goes to a new school where everyone can magically sing and dance. She meets some new friends like Tracy, Charity and Thomas who is in a street dance gang. When Thomas and Megan connect they must face their "impossible" dreams together. Trying to "bring it", they work together to bring the ultimate dance group together. They also must face the difficulty of having a inter-racial relationship, as black women and white men passing them by, they try to pretend their love isn't real. But will they put all aside to help Thomas and his crew win the five grand to pay back his sponsor? Well, if you've see the "dance flicks" of the past decade, you know how it goes.

Now for some odd reason I did get a few laughs out of a stupid movie like Meet the Spartans, but that was because I kept my expectations low and knew what I was going into. With Dance Flick it was completely different, I was really excited because we have a really funny team working on the film. But they relied too much on the gross jokes, instead of getting a laugh from them, they keep pushing on the gross jokes too much on the audience and it just didn't work. The actors seemed to force their comedy too much as well where they were just not funny. The movie was also, like most spoof movies, was way too short as well, the stories didn't make sense and were just too random. I'm sorry to say that Dance Flick is just a bad movie, it has a couple giggles here and there, but the audience was silent throughout most of the film. I'd say to skip the movie, if you really want to see it, go for the rental.

2/10 In comedy, they say, timing is everything. This movie works great when boiled down to a 30-second promo, and I was actually pretty excited to see it, even though I've never been a big fan of the Wayans' movies (and haven't even seen most of the films that this one spoofs). Unfortunately, they managed to fit most of the big laughs into that preview, so those moments didn't strike me as hard, and some of them dragged on too long and simply weren't funny at all (like the "invade my space" scene).

I do think the current rating (2.8) is a bit harsh, though. The movie isn't that bad, it just isn't as funny as I'd hoped it would be. The best bits in this film fall short of being inspired, but they are outrageous. Dance Flick is a dance film parody based on a screenplay by the Wayans Brothers—Dante, Keenen Ivory, Shawn, Marlon, and Craig—and directed by their nephew Damien Dante. Being released as an Unrated version on DVD, the Director's Cut features approximately 6 minutes of new footage that was reinserted into the movie. Don't expect anything spectacular and those scenes don't improve the movie at all. Fans are maybe happy with this new cut, others won't care. a5c7b9f00b
